

## JACQUES DE LA JUGIE

*(Minervois)*

**H**ow fascinating that a town, and thus a wine region, came after the Roman Goddess of Wisdom! Minervois are in general more supple and balanced than many other wines from France's deep South, even though the same grape varieties are employed. A touch of wood underneath serves to support the soft dark fruit with a suggestion of spice. A model of honesty and value, la Jugie works well with cheeses, pâtés, mildly spicy foods of all sorts-try a bottle today!
