

**DOMAINE DE COURTEILLAC
Bordeaux Superieur**

65% Merlot, 25% Cabernet Sauvignon and
10% Cabernet Franc

As with other *Bordeaux* on the right bank of the *Garonne* River, such as *Pomerol* and *St. Emilion*, *Courteillac* is predominantly Merlot-based. Merlot imparts a rotund plummy, velvety texture and genial drinkability. However, palates trained on California Merlot may require a touch of recalibration as they approach this wine. It is a bit firmer and more lean than most Californians, but has the added components of pleasant herbaceous and mineral notes you don't often get in left-coast wines. That is to say it has a distinctive '*gout de terroir*', or *taste of earth*, classically Bordeaux in style. 15 months in French oak, 1/3 new wood, completes the treatment of this elegant, deep and aromatically refined wine. Very fine all-around value and *very French*.
