

# CHARDONNAY

## LUC PIRLET

*(Vin de Pays d'Oc)*

**G**rape varieties like Chardonnay, known for the majestic wines they produce in more northern climates, can, if correctly handled, create delicious wines in the warm lands to the south. Part of the key is to find ways to retain the crisp and lively flavors that make white wine so good. Luc Pirlet has crafted here a floral bouquet with citrus aromas, complemented by a touch of oak. This full-bodied Chardonnay is both smooth and complex, with a tasty, lingering finish.
