

CAVE DE SAUMUR

LES POUCHES

(Saumur)

The Loire valley is known for growing the best Chenin Blanc in the world – this wine shows why. Made from a favored vineyard (of 45 year old vines with naturally low yields) the result is stunning – racy and dry with refreshing apple and lemonflower fruit. Saumur itself is a storied town boasting a fairytale castle, its tumultuous history as a center of Protestant culture hardly discernible from its picturesque face today. For a thousand years, peasants have dug into the hillsides to create houses from the chalky soil. The same soil which also allows vignerons the luxury of extensive cellars is responsible for the quality of the local wines.
