

## CAMPI NUOVI MONTECUCCO RISERVA

---

The Boston Globe celebrated the Campi Nuovi Montecucco normale as an affordable and ‘tasty alternative’ to Brunello di Montalcino. That makes the riserva an alternative to Brunello riserva ;) Actually given the high altitude vineyards, large wooden vats and organic practices, the wine is much fresher than a comparable Brunello, without giving anything up in complexity. Red cherry fruit is set off beautifully with underbrush, lovely tobacco notes and polished tannins.
