

HOFGUT FALKENSTEIN

KRETTNACHER EUCHARIUSBERG

RIESLING AUSLESE

Elsewhere in Germany, even in the Saar itself, wines are getting bigger. Richer, stronger, and sometimes sweeter.

Not at all a bad thing in many ways. But we have a soft spot for the ethereal wines of yesteryear. Graceful, delicate, fresh. Erich Weber still makes such wines, and the Euchariusberg is the most winsome and charming of all. It is an Auslese, but in weight and style it is lighter than many modern Kabinetts. Open a bottle, taste a living fossil, and smile broadly.
